Our Signature Craft: Handmade & Artisanal Tea

Tea is at the heart of Crafted Leaves.

Our Handmade and Artisanal Teas represent an appreciation for traditional craftsmanship, generations of knowledge and the distinctive character of Ceylon Tea.

Crafted using inbred seedling tea leaves, our teas follow traditional tea-making methods perfected over more than 150 years.

Unlike conventional approaches that focus primarily on large-scale production, artisanal tea-making places particular value on the skill, attention and care involved in the preparation of tea.

From the selection of leaves to the final stages of preparation, we value the craftsmanship that contributes to the tea's natural aroma, flavour and character.

Inspired by the tea-growing heritage of Southern Sri Lanka, our artisanal teas offer a distinctive experience for those who appreciate authenticity, tradition and quality.

More than a beverage, every cup represents a connection to the heritage and craftsmanship of Ceylon.
